FORCING COL. DUFFEY WOULD LIKE TO OUT OF COMMAND SELL MORE WOOD OF N. Y. SIXTY-NINTH

A Hot Fight Began in New York National Guard Circles.

(Special from United Press.)
New York, March 11.—National Guard circles are to-day stirred as they have never been stirred before as the result of what the rank and file charge is the practical forcing out of the organization of Col. Edward Duffey of the Sixty-ninth, the best known Irish regiment in the country by a clique of rich men who have secured commissions and are anxious to get high rank in the state militia. Col. Duffey has sent a request to Gov. Hughes that he be retired and as he has been in the regiment since 1887 there is every prospect that his request will be granted and that he will be given a major general by brevet, he now enjoying the rank of brigadier because of "long and meritorious service."

It is however the story behind the retirement of Col. Duffey that has stirred the Guard and promises to result in a scandal that may have one effect not alone on the National Guard of New York but also in every state where rich men are declared to be crowding out poor men in the commissioned ranks of the Guard.

LEADERS FOUND GUILTY.

Of Charging Too High a Rate of Interest.

Hartford, March 11.—Addie Umberfield and Minnie Hurlbut who are acknowledged agents here of D. H. Tolman, the Chicago money-lender, were found guilty of charging too high a rate of interest in the superior court yesterday afternoon and Judge Ralph Wheeler fined each \$20 and costs against each. A fine of \$100 and costs against each. A. Storrs Campbell, who represented them, gave notice of an appeal to the supreme court.

The complaint charged that as agents of D. H. Tolman the women made a loan of \$10 to Michael J. Walsh, and that was charged at an interest rate of 300 per cent. a year. The second count charged that a loan of \$250 was made to William H. Atkins and that was charged at an interest rate on the loan of 100 per cent.

Mr. Campbell called Miss Umberfield to the witness stand and had her explain what the contracts were.

"Who is D. H. Tolman?" asked State's Attorney Alcorn.
"Why, he is a man," she replied.
"What is his business?"
"He loans money to salaried people in the United States and Canada."
"He has an office here?"
"He has sixty-six offices throughout the United States and Canada."
"And his sole business is the loaning of money?"
"In so far as I know."

WILL PASS ANOTHER CENSUS BILL.

(Special from United Press.)
Washington, March 11.—The desire of Congress to have appointments to the census bureau based on the "Spoils system," will not be realized, Roosevelt killed a bill containing that provision and Taft has let it be known that he will veto the bill if it is passed again and put up to him for signature. To meet the objections of House leaders have modified the bill. Persons who want to help take the next census, will have to stand special test examinations conducted by the civil service commission. An effort will be made in the House to avoid the appointment of a census commission in the special session. It is proposed to pass the bill as modified, under a special rule.

SMITH, MURRAY & CO.

new boundaries or see that the old ones are in good shape." His direct definition of the word is "to walk through or over."

Hence some persons are finding fault with the Selection for hiring a surveyor to make a survey of the whole line instead of only those portions of it where the absence or uncertainty of the former landmarks made such work necessary. The board took the action of hiring a surveyor largely because they wished to have the boundary mapped, and they engaged D. C. Sanford to do the entire work because his per diem terms were much lower than those of the only other applicant for the job. His experience and competency also influenced them in selecting him and they considered that the expense would not be large as the other towns in interest would pay one-half. It happens, however, that the section on which Mr. Sanford and his two helpers have been working for nearly two months was not only gone over in recent years by a surveyor but also mapped. This is the part of the line fronting on Bethel, Ridgefield and Danbury. The marks are cut stone slabs and all are said to be in place. Mr. Sanford had said he would make a half story in his report. He actually averaged not a quarter of a mile. When the bills came in, therefore, the Selection became indignant and called a halt. One member is in favor of entirely dropping the engagement and accepting as a loss the bills already incurred.

LIFE IN OKLAHOMA
PLEASANT BUT WINDY
Farmer Correspondent Writes Interesting Chat About Newest State.

Editor of the Farmer:

Sir—Here as I sit at my bungalow window, I thought a few lines to the Eastern people from this new State would not be amiss. This part of the country so unlike the East in every respect is very pleasant and warm, quite like summer. Here the winds are high winds which people here seem to dread—so much so that many build cellars away from their homes, not far from the street, and when the winds reach the place, there to remain until they subside. A few weeks ago I sat at my window, saw papers flying through the streets like a storm; shortly a wash boiler, tubs and boxes came flying through the town from all directions, three foot boards and everything imaginable that may have been out of doors, yet the buildings do not shake. Yet people are so frightened. Almost all buildings are one or two, three, four and sometimes five rooms, which is called a nice home, and all of which are nicely furnished with libraries and music. Some of the more prosperous families entertain quite a little, and I find many of the people very nice and quite up to date, while one would suspect an entering such a village as this.

A short distance from here are numerous fields and immense oil tanks that hold not less than 35,000 barrels of oil, which are full and overflow and run into the creeks, which has been destructive to cattle, many having died of thirst. The cattle are not cared for as in the Eastern States. Many gas wells burn here constantly. There is not a cheap thing here. Every man uses gas for all purposes in the household. This place is mostly populated by Indians or half breeds, many whites marrying Indians for the money they own. The Indians are sick and do not work, the women work, and hard working women they are. You can see no colored people here. This is a small town; three churches, school house, several grocery, drug, meat and dry goods stores, bakeries, market, two hotels, several restaurants and printing office, post office.

SOCIALISTS PLANNING AGGRESSIVE CAMPAIGN
(Special from United Press.)
Girard, Kas., March 11.—With the National campaign over and the two big parties starting on their four year suspension of hostilities, the Socialists are making their preparations for a campaign of education to last during the next four years which they expect to greatly strengthen their cause. Eugene V. Debs, the quadrennial presidential candidate of that party began to-day his examination of reports compiled showing the Socialist vote cast at the last election. He will, so soon as he has succeeded in digesting it, suggest to National Secretary J. Maplin Barnes just where the organizers of the party shall be sent and one place that he has already made up his mind that there is a great field for work in Iowa, Kansas and Nebraska.

Socialism is gaining among the farmers there very rapidly, he declares. Debs has both the Democratic and the Republican parties impartially. From his point of view the new administration in Washington is perfectly satisfactory to the Socialists of the nation.
